Cited Half-life: >10.0
Eigen-factor TM Score: 0.00027
Article Influence TM Score: 0.171
Aims and Scope:
 Archives Des Sciences Journal (ADS) aims to publish original work of importance in any field, which will interest readers from more than one discipline. In particular, we are keen to publish work with international audience. Research contributions, which are peer-reviewed, are of three kinds: reviews, articles, and research letters. The format for all of these categories is, of necessity, relatively brief compared with that of more specialized journals.
Country:Switzerland
Publisher:SOC PHYS HIST NATURELLE GENEVE
