

# SBL

## THEME: INTESTINAL DISORDER

**At the end of SBL students must know about:**

- . Definition of diarrhea**
- . Causes of diarrhea**
- . Relevant investigations of diarrhea**
- . Management of diarrhea**

### **Scenario:**

30 years old male complaining of loose motion and abdominal cramps since last 7 months.

He is also complaining itching and painful red eyes with multiple joint pains especially in both knees and ankles.

He went to the different local practitioners but he didn't get any relief.

He landed in the medical OPD for help.
